Subj: Recommendation for Supplier

Henek Manufacturing has a proven track record at our Houston Hobby Terminal for quality products, service, and reliability. We had to use Henek Manufacturing to keep our terminal running when our normal suppliers were shut down and unavailable.

Henek showed true concern and helped our facility strategically plan a filtering process without capital dollars. Through diligence and team efforts, we achieved our goal by filtering Valero product through their manufactured filters.

We look forward to doing business with Henek Manufacturing and recommend them as a competitive bidder on the bidders list.

Thank you for your consideration,

C.Weir

Valero LP

Terminal Manager
